EXPLORE THE BENEFITS OF

EASY WATER CLEANING

DIFFICULT LIQUIDS ABSORPTION

ECO FRIENDLY FABRICS

FIRE RETARDANT

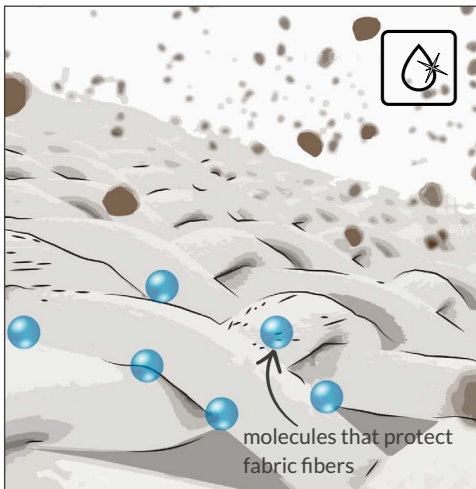

SUITABLE FOR PETS

ALLERGY FREE

USE THE POSSIBILITIES GIVEN
BY **MAGIC HOME** TECHNOLOGY*

*Ask the salesman about functions of chosen fabric or check out our website www.magichomecollection.pl

EASY WATER CLEANING

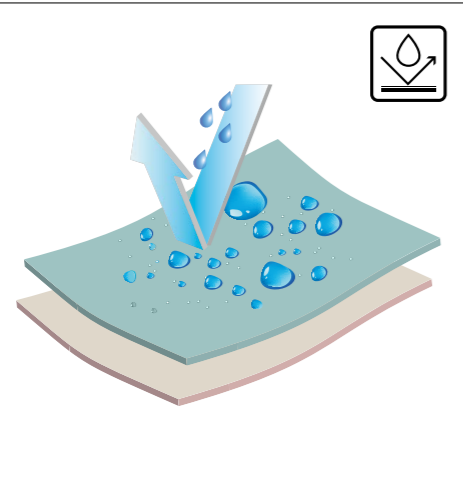

Already at the production stage fibres are coated with special molecules that protect the fabric against being penetrated by dirt. Thanks to this, all stains can be cleaned quickly and efficiently.*

molecules that protect fabric fibers

DIFFICULT LIQUIDS ABSORPTION

The technology of covering the fabric with a special hydrophobic coating effectively hinders the absorption of spilled liquids, leaving their drops on the surface of the fabric.*

**refers to selected fabrics

CHECK HOW SIMPLE IT IS REMOVE STAINS IN 3 STEPS

STICKY STAINS ketchup, mayonnaise, yogurt, sauces etc.

1 Remove the stain with a spoon: carefully, without pressing in or rubbing the smear in the fabric.

2 Sprinkle the remains of the stain with water and drain with a paper towel.*

3 Leave for drying.

* In the case of problematic stains, soak the stain with water again and wipe with a microfiber cloth using pure soap until the stain is removed completely. Leave the material to dry.

LIQUID STAINS coffee, tea, juice etc.

1 Collect spilled liquid with absorbent towel.

2 Sprinkle the remains of the stain with water and drain with a paper towel.*

3 Leave for drying.

INK STAINS pen, marker etc.*

1 To remove dirt from the pen, prepare a white rubber for abrasion.

2 Wipe off the dirt with a rubber, making decisive movements. **

3 Enjoy the cleanliness of your sofa.

* Applies to stains on eco-leathers.

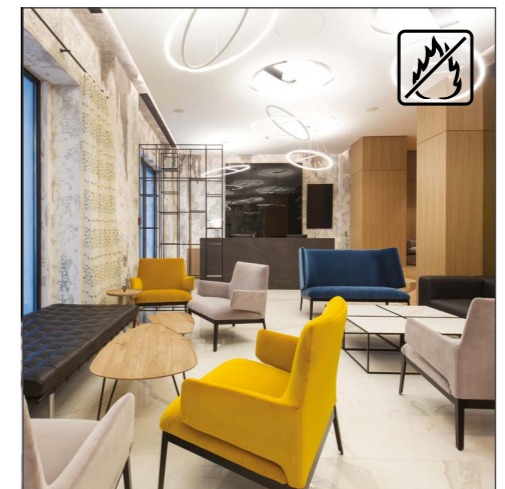

** In the case of problematic stains, use sprayed ethyl alcohol.

ECO FRIENDLY FABRICS

are made with natural fibers such as cotton, linen or viscose, while OEKO-TEX certificate confirms that they are safe for natural environment.*

*refers to selected fabrics

FIRE RETARDANT FABRICS

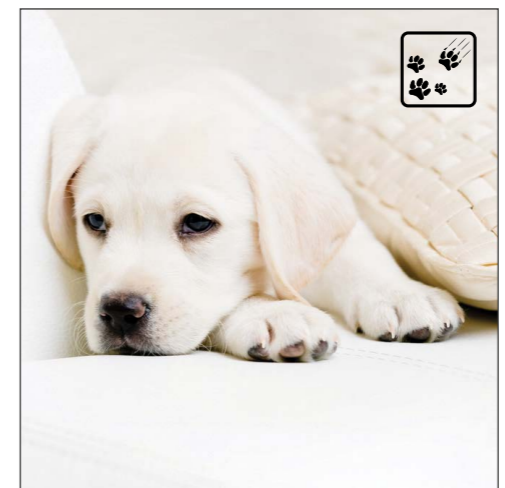

They meet strictly defined standards, thanks to which they minimise the risk of spreading fire. Flame-retardant fabrics are primarily intended for public utility buildings.*

*refers to selected fabrics

SUITABLE FOR PETS

The advanced technology of fabric production makes the daily joy shared with your pet unrestricted. Products from this group are easy to clean and have higher resistance to dirt and scratches.*

*refers to selected fabrics

ALLERGY FREE

Magic Home fabrics meet high quality standards, confirmed by the Oeko-Tex Standard 100 certificate, issued by an independent research institute. It means that they are friendly to human skin and health, meet human and environmental safety requirements and do not contain harmful substances.*
